

FruitLook September 2019: FruitLook 2019-20 coming up!

Dear Mr. Doe,

We are happy to announce the official launch of FruitLook 2019-20 is planned for **1 October 2019**. We want to thank the Western Cape Department of Agriculture for their continued support to FruitLook.

FruitLook 2019-20 is available for all major agricultural areas in the Western Cape. Our aim for the coming season is to, as always, contribute to a more resource efficient way of farming. Our satellite-based data products allow in-season insight in crop production, crop water use and crop mineral content. Keeping track of your crop development can help you make better informed decisions on irrigation and other crop management practices.

Our local team is available to help you make an optimal start to this season; feel free to contact them at info@fruitlook.co.za! We hope to see you soon at FruitLook 2019-20!

Best regards,
The FruitLook Team
